

PHILOSOPHY

All children deserve a good beginning in life. The staff of the Child Development & Education Center believes that it must work to meet the needs of the whole child; respect and recognize individual differences in children and their families; and provide a safe, physical and psychological environment where children are accepted, nurtured and listened to. Parents and the CDEC staff are partners in providing care and education for young children. Thus, mutual respect and open communication must exist among parents, staff, and administration of the CDEC. All people associated with the CDEC - children, students, parents, and staff - are lifelong learners, ever changing and growing in knowledge and understanding.

THE CHILDREN'S PROGRAM

Children learn by doing. The environment of the CDEC invites children to learn by interacting with teachers, materials, and other children. The program promotes emotional, cognitive, and physical development by providing opportunities for each child:

- To experience a sense of self-esteem
- To exhibit a positive attitude toward life
- To demonstrate cooperative, pro-social behavior
- To acquire learning and problem-solving skills
- To expand logical thinking skills
- To acquire concepts and information leading to a fuller understanding of the immediate world
- To demonstrate skills in make-believe play
- To expand verbal communication skills
- To develop beginning reading and writing skills
- To enhance gross and fine motor skills
- To use all senses in learning
