

BACHELOR OF APPLIED SCIENCE (BAS) DEGREE

The Bachelor of Applied Science in Project and Acquisitions Management (BAS) offers four pre-planned areas of emphasis: Acquisitions, Project Management, Quality Improvement, and Training & Development/Human Resources. There is also an option for developing a "customized" program plan that allows a student, in consultation with an advisor, to select the set of upper division courses most complementary to his or her education and career goals.

In addition to the 36-credit general education requirement (1000 and 2000 level courses) for a baccalaureate degree, students will build upon their associate's degree coursework to complete a comprehensive 120-credit curriculum. The junior and senior level curriculum (3000 and 4000 level courses) consists of a 24-credit core and 18-30 credits of emphasis and elective courses.

Most students will complete the core first, but some specialized courses may be taken prior to completion of the core. Students may select the area of emphasis that best fits his/her career goals. There are five areas of emphasis from which to choose, each requiring at least eighteen credits to meet degree requirements.
