### **Additional Course Information:**

Detailed NWFSC policies can be found in the Catalog and Student Handbook.

Students with Disabilities: Northwest Florida State College supports an inclusive learning environment for all students. If you have disabilities for which accommodations may be appropriate to assist you in this class, please contact the Office of Disability Support Services on the Niceville Campus, or call 850-729-6079 (TDD 1-800-955-8771 or Voice 1-800-955-8770). <http://www.nwfsc.edu/Students/StudentAffairs/Disability/>

Students are responsible for adherence to all college policies and procedures, including those related to academic freedom, cheating, classroom conduct, computer/network/ e-mail use and other items included in the Northwest Florida State College Catalog and Student Handbook. Students should be familiar with the rights and responsibilities detailed in the current Northwest Florida State College Catalog and Student Handbook. Plagiarism, cheating, copying fellow students' work or any other form of academic dishonesty is a serious breach of student responsibilities and may trigger consequences which range from a failing grade on the assignment and/or a failing grade in the course and/or formal disciplinary action. Students must complete their coursework independently.

Northwest Florida State College subscribes to Turnitin, an online plagiarism detection and prevention service. By enrolling in this class, you are consenting to upload your papers to Turnitin, where they will be checked for plagiarism. Papers submitted to Turnitin are saved as source documents within the Turnitin database solely for the purpose of detecting plagiarism in other papers.

Cell phones, pagers and other such electronic devices must be turned off during class times. Communications by electronic devices, including but not limited to instant messaging, text messaging, and telephone calls, during class is prohibited unless expressly designated as part of the learning activities.

In the event of unusual or extraordinary circumstances, the schedule, requirements, and procedures in this course are subject to change. If the college closes for inclement weather or other emergency, the date for any exams, presentations, or assignments due during the closure period will be postponed. A revised schedule will be available at the first regular class meeting held once the college re-opens. If changes to graded activities are required, students will not be penalized as a result of the adjustments, but will be responsible for meeting revised deadlines and course requirements.

Students are expected to attend all of their scheduled classes, as class attendance is one of the strongest predictors of student success. Three consecutive day class absences, two evening class absences, or three absences in a month, and/or absences in excess of 25% of the class meetings will be reported to the Department of Academic Advising/Counseling and Financial Aid as excessive absences. Excessive absences for distance learning/hybrid classes may be determined by lack of contact with the instructor, and/or failure to make progress by not completing online coursework (exams, dropbox "attendance" essays, assignments). Please note that simply logging into the course, in D2L, does not constitute participation. Further, being tardy to three in-class meetings, will count as one absence.

As a courtesy to other students and the learning process, students may not bring children with them to class sessions. Health and safety concerns prohibit children from accompanying adult students in any lab, shop, office, or classroom or other college facility where potential hazards exist. If a child-related emergency means you must miss class, contact the instructor as soon as possible to determine your options.

At the discretion of the instructor, an incomplete grade ("I") may be awarded when the student is unable to finish the required work because of unforeseen extenuating circumstances such as illness or TDY assignment. To receive an "I" grade, the student must have successfully completed a significant portion of the required coursework and be able to finish the remaining work without attending class. An "I" grade will automatically convert to a grade of "F" if the student does not complete the remainder of the coursework by the established deadline.

## STUDENT RESOURCES
