**DATE ADOPTED:** 2/1/2013

**NUMBER OF PAGES:** 1

**REVISIONS:** New Policy

**SIGNATURE OF BOARD SECRETARY:**

---

**Purpose of Policy**

To provide for the naming, renaming, or removal of a name from campus facilities and grounds.

**Local Language**

The Board of Trustees reserves the right to name, rename, or remove the name from college facilities, locations, and grounds. The President shall recommend such naming opportunities to the Board of Trustees for action.

In the event that a previously named facility or grounds is to be recommended for renaming, the Board will consider the basis upon which the facility was initially named prior to action. If a naming was originally provided for primarily due to a financial donation to the College or its Foundation, such facility or location will not be renamed without the donor's or their heir's approval.

If a facility or location was given a general name (i.e. The Student Services Complex or Building A) that naming shall be assumed to have been one of convenience and not intended as permanent.

If the a facility or location has been named for an individual or organization and that entity either fails to complete the financial obligation agreed to in order to secure the naming, or behaves in a fashion that the continued naming of the facility will potentially bring shame or ridicule to the college, the Board of Trustees reserves the right to remove the name from the facility or grounds.
