**COURSE DESCRIPTION**

Through this course, students will utilize multiple means of problem-solving through student-centered mathematical exploration. The course is designed to teach students to think more effectively and vastly increase their problem-solving ability through practical application and divergent thinking. This course is appropriate for students in a wide range of disciplines/programs. This course fulfills the Gordon Rule of computation requirement and must be completed with a grade of C or higher (pursuant to state board of education rule 6a-10.030).

**COURSE-LEVEL STUDENT LEARNING OUTCOMES**

1. Determine efficient means of solving a problem through the investigation of multiple mathematical models.
2. Apply logic in contextual situations to formulate and determine the validity of logical statements using a variety of methods.
3. Apply mathematical concepts visually and contextually to represent, interpret, and reason about geometric figures.
4. Recognize the characteristics of numbers and utilize numbers along with their operations appropriately in context.
5. Analyze and interpret representations of data to draw reasonable conclusions.

**COURSE PREREQUISITES**

Students who are exempt from placement testing may enroll in this course with no prerequisites. Students who are NOT exempt from placement testing may meet the prerequisite through any one of the following:

- (1) 114 or higher on the math section of the PERT OR
- (2) successful completion of MAT 0022 or MAT 0028 with a grade of "C" or better or equivalent or higher mathematics course.

**COURSE MATERIALS**

### **TECHNICAL SKILLS AND SPECIALIZED TECHNOLOGY**

This course has online components. Students must provide their device(s) to access and complete this class online. In addition to baseline word processing skills and sending/receiving emails with attachments, students will be expected to search the Internet and upload/download files. If you encounter technology challenges using course resources in the Learning Management System, email the Center for Innovative Teaching and Learning at [online@nwfsc.edu](mailto:online@nwfsc.edu) or call 850-729-6464.

### **EMERGENCY COLLEGE CLOSURE**

This course's schedule, requirements, and procedures are subject to change in the event of unusual or extraordinary circumstances. If the College closes for inclement weather or another emergency, any exams, presentations, or assignments previously scheduled during the closure period will automatically be rescheduled for the first regular class meeting held once the college reopens. If changes to graded activities are required, students will not be penalized due to the adjustments but will be responsible for meeting revised deadlines and course requirements.

### **ACADEMIC CONTINUITY PLAN**

NWFSC is dedicated to protecting the health and well-being of its students, staff, and faculty. The College is dedicated to working with faculty and students to ensure timely course and program completion during emergencies. In the event of a College closure, the format of this course may be modified to enable completion of the course through other means, including but not limited to online course delivery through online classrooms. Check your RaiderNet College email and LMS classroom online for any updates.

### **WELCOME TO CLASS**

Thank you for choosing NWFSC for your education—and welcome to class!
