Of those graduates pursuing employment in the field, at least 80% will be gainfully employed within 6 months of graduation.

Academic Year	NWFSC	Outcome
2019-2020	Pending	Pending
2018-2019	92%	Met
2017-2018	93%	Met

Student Learning Outcomes:

Upon successfully completing the AS in Nursing Program, our graduates will have the following knowledge, skills, and abilities:

- 1. Provides client assessment through the collection, analysis, and synthesis of relevant data in order to holistically appraise the client's health status.
- 2. Promote and maintain health and reduce risk through client health education, informed decision making, and support of the client self-care activities.
- 3. Use evidence-based practice and critical thinking to find solutions, individualize care, and assure the delivery of accurate, safe care for clients. This includes performing accurate assessments, using multiple methods to access information, analyzing and integrating knowledge and information to formulate clinical judgments.
- 4. Participates in communication through the exchange of information that may occur therapeutically, verbally, non-verbally, in writing, or through information technology.
- 5. Participates in the team approach to managing client-centered care focused on quality and cost-effective holistic care across healthcare settings through shared planning, decision making, problem solving, goal setting, and assumption of responsibilities
- 6. Incorporate behaviors and actions that assist in meeting clients' needs by "being with" and "doing for" clients to achieve the desired results. Included in the caring is creating an environment of hope and trust, that respects the client's cultural values, beliefs, and lifestyles.
- 7. Exhibit professional behaviors by adhering to standards of professional practice, be accountable for own actions and behaviors, and practice nursing within legal, ethical, and regulatory frameworks.
