

Learn How to Draw Blood

Course: MEA 1040C – Phlebotomy (2 Credit Hours)

Format: Hybrid

Offerings: Fall, Spring, Summer

Duration: 8 weeks

What is phlebotomy?

Phlebotomy refers to the process of drawing blood. Northwest Florida State College is now happy to offer an 8 week phlebotomy course that actively trains students to perform phlebotomy and understand associated patient safety and governmental regulations.

Only come to campus once per week!

This course is ideal for anyone who

- Wants to work as a phlebotomist (in Florida)
- Is interested in taking other MLT classes
- Is pursuing, or is interested in pursuing, a career in healthcare

It is important to note that this course does not result in certification. However, the state of Florida does require licensure or certification to perform phlebotomy or to work as a phlebotomist.
