Program Outcomes

As of March 2025, MLT Program Outcomes are based on three graduating cohorts.

External ASCP Certification Rate (2023): 89%

External Certification Rate is defined as the number of students who passed the American Society for Clinical Pathology Board of Certification (ASCP BOC) MLT Exam divided by the number of students who sat for the exam within the first year of graduation.

Graduation Rate (2024): 100%

The Graduation Rate is defined as the number of students who began the final half of the program (defined as the clinical phase) during the given time period and have since graduated divided by the number of students who began the final half of the program minus the number of students who began the final half of the program but are still currently enrolled.

Employment Placement Rate: (2023): 100%

The Employment Placement Rate is defined as the number of respondent graduates that looked for and found employment in the field or in a closely related field and/or continued their education within one year of graduation divided by the total number of respondent graduates.

Attrition Rate (2024): 0%

The Attrition Rate is defined as the number of students who began the final half of the program but subsequently left (voluntarily or involuntarily) divided by the number of students who began the final half of the program.

	2022	2023	2024
ASCP Certification Rate	100% (5/5 students)	89% (8/9 students)	Not enough time has passed to gather pass rate data
Graduation Rate	100%	100%	100%
Employment Placement	100%	100%	Not enough time has passed to gather employment data
Attrition Rate	0%	0%	0%
